7 REPAIR FACILITY GUIDELINES FOR CLAIMS HANDLING

Follow these steps when handling a claim.

1. Advise the Contract holder that evaluation of a Failure does not mean that the repair is covered under this Contract. All covered repairs must receive prior authorization from the Administrator.
2. Have the Contract holder authorize the inspection/tear down of the Unit to determine the cause of the Failure and the cost to repair. Save all components, including fluids and filters, should the Administrator require an outside inspection. Notify the Contract holder that the cost of tear down will not be paid if it is determined that the Failure is not covered under this Contract.
3. Determine the cause of Failure, correction required and cost of the repair(s).
4. Contact the Administrator's Claims Department at **1-800-942-0400** to get authorization to proceed with the claim. Be prepared with the following information when placing the call:
 - a. Customer's Name and Contract Number.
 - b. Cause of Failure and recommended correction.
 - c. Cost of repair(s).
5. A Claims Advisor will verify Coverage and do one of the following:
 - a. Approve Claim - If approved, the authorization number must be recorded on the repair order. The authorized amount is the maximum that will be paid. Additional amounts must receive prior approval.
 - b. Require Additional Evaluation, Inspection or Tear Down - The Administrator may require an inspection prior to repair being completed. If a tear down is required to determine the cause of Failure, the Contract holder must authorize same. Notify the Contract holder that if the repair is not covered, then the Contract holder will be responsible for cost of the tear down. The repair facility should save all components requiring inspection, including fluids and filters. The Claims Advisor will arrange for the inspection. If the inspection is not made within forty eight (48) hours, contact the Claims Advisor.
 - c. Deny the claim and provide the reason for the denial.
6. Review the Administrator's findings with the Contract holder as well as what will be covered by the Contract and what portion of the repairs, if any, will not be covered.
7. Obtain the Contract holder's authorization to complete repairs. All repair orders must have the Contract holder's signature to qualify for payment.
8. Submit the repair order(s) that must include the Contract number, authorization number and authorized amount to the Administrator within thirty (30) days to the following address: **Interstate National Dealer Services, Inc., P.O.
